### **Leading Children's Hospital Utilizes MEDai's Solutions to Deliver Outstanding Care**

**Orlando, Florida – (October 18, 2007)** MEDai, Inc., a leading provider of business intelligence solutions that combine predictive analytics with data mining for the healthcare industry, announced this week that its longstanding client, Miller Children's Hospital in Long Beach, CA, was one of eight children's hospitals named to the 2007 Leapfrog Top Hospitals list.

"MEDai congratulates Miller Children's Hospital on its outstanding performance," said Swati Abbott, President of MEDai. "Miller Children's strives to delivery quality healthcare to the community it serves and that is supported by the hospital's commitment to invest in technology that will help improve processes and outcomes," she added.

Miller Children's Hospital utilizes MEDai's Pinpoint *Quality*<sup>™</sup> and Pinpoint *Compliance*<sup>™</sup> solutions. Pinpoint *Quality* provides access to clinical, quality, and cost indicators for disease categories that represent 75% of all inpatient populations. The application allows for immediate identification of cost savings opportunities and areas for improvement via a library of standard executive level dashboard reports and ad-hoc reporting. Reports can be filtered by disease, facility and physician.

Pinpoint *Compliance* provides the hospital with an efficient and effective means for adhering to regulatory reporting requirements. The analysis and reporting module provides clients with the tools they need to review, analyze, and validate the data they are reporting to regulatory agencies.

#### **About Miller Children's Hospital**

Located on the campus of Long Beach Memorial Medical Center, Miller Children's Hospital is a full-service hospital providing a complete range of primary and specialty care for children of all ages, as well as expectant mothers. The hospital's many specialized services include the MemorialCare Center for Women, Jonathan Jaques Children's Cancer Center, the Stramski Children's Developmental Center, Bickerstaff Pediatric Family HIV Center, and pediatric abuse and violence intervention, cardiac, cystic fibrosis/pulmonary, endocrine, gastrointestinal, rehabilitation, renal, rheumatology and spina bifida centers.

**About MEDai**

MEDai, Inc. is a leading health information company offering award-winning business intelligence solutions for the improvement of healthcare delivery. Utilizing cutting-edge predictive analytics, payors and care management organizations are able to forecast patients at risk, identify cost drivers for their high-risk population, forecast future health plan costs, evaluate patient patterns over time and improve outcomes.
